Legal Name: Venkat Vijay, Kalyan Kireeti Varma, Dendukuri

+1 (825) 995-0891 • mail@kireetivarma.me • kireetivarma.me • linkedin.com/in/kireetivarma

Designer turned PM with 11+ YOE building software products for 200Mn+ users globally, with 9+ years leading product teams, driving Vision, Strategy & Execution, with keen focus on user centered design, data driven decision making & proven expertise in mobile OS. Led strategic partnerships & shipped features globally resulting in significant user growth & engagement. Built food-delivery status on AOD on OnePlus mobiles, paving way for AOD use cases across the mobile OS industry. Consulted product design to 0-1 early-stage startups, raised seed fund - NLP product.

Experience

MAY 2025 – Present

Product Consultant | Coalition House Products Inc | Calgary, Canada

- Built Product f(), an LLM Knowledge base for product teams, with agents working with the team.
- Consulted on Reporting Hub, a business intelligence AaaS platform, conducting a design audit and improving the design system for the admin console and tenant management.
 - Introduced product features that improved product knowledge for end users and enabled self-serve guidance through documentation, directly supporting customer success.
- Built Pro Studio, a B2C SaaS product for production houses, leading product design, planning, and development while integrating AI workflows for pre-production.
- Led digitization of an online store and built a conversational LLM workflow for bookings and support through WhatsApp for Petfolk.
- Designed product v1, design systems, and interaction patterns for Labh, a quant investment fintech product.

JUNE 2024 – APRIL 2025

Lead Product Strategy | OnePlus | Bengaluru, India

- Led partnership collaborations integrating Zomato and Blinkit services into OnePlus Shelf on OxygenOS 15, enhancing product value and user experience.
- Streamlined product planning by conducting quantitative and qualitative user research, including IDIs and FGDs, identifying target users and informing product marketing.
- Drove product discovery initiatives that contributed feature ideas to the OS planning team, including AI capabilities for Search, AI Plus Mind, and AI Translate through Google AI integrations.

AUGUST 2023 – MAY 2024

Product Consultant | Individual | Hyderabad, India

- Built Itihasa's product for secure script management and profile creation for writers in the film industry, owning product vision, design, and no-code development across database, workflows, and UI.
- Integrated GenAI workflows to help script writers move from ideation to full scripts and to visualize talent profiles in scenes envisioned by production teams.

AUGUST 2019 – JULY 2023

Senior Product Manager | OnePlus R&D Center

OneLab Studio | New York, USA

- Spearheaded product integrations and partnerships with Spotify, Snapchat, Zomato, Swiggy, and Grab across India, North America, Europe, and Southeast Asia, while aligning product, design, and PM teams on strategic OS initiatives impacting 200Mn+ users.
- Introduced AOD Status for food delivery updates on OnePlus and Oppo devices running OS13 and above, creating an industry-first partner-powered OS experience.
- Brainstormed and developed product concepts across mobile, watch, and TV categories at OneLab Studio, contributing ideas during product planning.

OnePlus R&D Center | Hyderabad, India

- Led the global release of OnePlus Shelf on OS12, growing MAU 4x and introducing monetization opportunities for the OS business, including deep integration with Spotify.
- Expanded OnePlus Scout from India to North America and Europe, enhancing on-device search and increasing search CTR by 200%.
- Released football scores to Sports, introduced a new sharing flow for Screenshots on OS11, and improved Timer UX.

- Launched Nearby Charging Stations at airports, collaborating with hardware systems teams on integration and end-user functionality.

DECEMBER 2017 – AUGUST 2019

Head of Products | Coalition House | Bengaluru, India

Imux (Co-founder)

- Led product and design for Imux, a B2B SaaS natural language interface for databases.

Coalition House (Founder).

- Led product and design for Station91, conducting user research, prototyping, A/B testing, usability testing, and feedback analysis, and supported product launch and marketing.
- Consulted on product design for Cab Dost, helping cab drivers pay ITR, and designed and developed the web app that scaled customers to 50K and supported the company's Series A momentum.
- Contributed product design for Leucine's CLEEN, Instoried, Incola's rental subscription web app, and Tymline.co.

FEBRUARY 2016 – DECEMBER 2017

Product Manager | SV.CO (Startup Village Collective) | Bengaluru, India

- Contributed to web app, gamification of learning, improving the experience of the SV.CO product.
- Contributed to skill mapping to the course curriculum, as defined by the National Occupation Standards

AUGUST 2014 – JANUARY 2016

Product Operations Manager | Startup Village | Visakhapatnam, India

- Led operations and incubation support for student startups at Startup Village.
- Streamlined operations while contributing to product processes.
- Organized meet-ups with angel investors, VCs, and founders.

Achievements

1. Awarded Employee Of The Year - 2021 for my contributions to OxygenOS, at OnePlus, in 2021.
2. Promoted to Senior Product Manager, at OnePlus, in 2022.
3. Raised seed-investment from Zeroth AI accelerator for Imux, cofounded by me, in 2018.
